## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 10 and 11 are objected to because of the following informalities: on pg. 7, line 12, pg. 9, line 17, and pg. 10, line 5, "process , and" should be "process, and". Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 7-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
4. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim. Regarding claim 7, the phrase "continuous machining is performed with same spindle and same tool" is indefinite since it is not clear what spindle and what tool is being referred to.
5. Claims 7-11 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: how the tool relates to the automatic programming device. Furthermore it is not known what the "information on a tool" is and how it relates to the device.

Art Unit: 2125

6. Claims 10 and 11 recite the limitation "process-developed machining units" in pg. 6, line 17; pg. 7, lines 12 and 20; pg. 9, lines 1 and 16; pg. 10, line 5. There is insufficient antecedent basis for this limitation in the claim.
